

Stationary Engine Catalytic Converters (Diesel/Gas/NG/LPG)

Need to reduce your deadly exhaust pollution? Engines failing to meet EPA, RICE NESHAP or EPA Tier 3 or 4 emission standards?

Then install our high performance catalyst and...

- Reduce Carbon Monoxide (CO) by up to 99%
- Reduce Hydrocarbons (HC) by up to 90%
- Reduce Diesel Particulate Matter (DPM) by up to 95%
- Reduce Nitrogen Oxides (NO_x) by up to 99%

Our catalysts offer these industry leading benefits:

- All catalysts are manufactured from premium grade 304 stainless steel to prevent corrosion
- Virtually no backpressure (>2" in. wc) added to exhaust
- Catalyst designed for quick installation with minimal downtime to engine schedule
- Catalyst available in inline, flanged, QuickCat and muffler configurations
- Catalysts available for standby and prime applications
- Allows engines to comply with EPA Tier I, II, III, IV, BACT, and RICE NESHAP
