Why Work With Us?

Buying a new diesel or natural gas generator is a costly capital expenditure for any business. Woodstock Power Company specializes in cost effective solutions, offering dependable used diesel & natural gas generators. Our inventory of used and surplus generators are only a fraction of the cost when compared to new generators. All our generators are inspected, serviced, and certified by industry experts to ensure the generators' reliability. Combining the cost savings of a used generator with the reputability of a trusted company is part of the value we deliver. Our generators are guaranteed to be in peak operations condition and will arrive at your facility ready to go!

Wide Selection

A benefit in working with Woodstock Power company is that we do not specialize in one specific brand. Our inventory includes a wide selection of different generators from manufacturers, that include top brands such as Kohler, Cummins, Caterpillar, and John Deere. We carry generators in various sizes and configurations, as well as a wide range of power output ratings.

Due to our longstanding relationships with companies across the United States, we service clients in the continental U.S. If we don't currently have the generator you're looking for in stock, we can get it for you quickly.

Save Big

Whether you are looking to buy a used diesel or natural gas generator, you will pay a fraction of the cost compared to buying a new generator. Most of our used generators will save 70% to 75% over a new generator. Purchasing a dependable used generator in good condition and low hours is a smart move for any company looking to cut costs without having to cut corners. When you work with Woodstock Power Company, you can rest assured that we will help meet your needs and budget, without the need to sacrifice on quality.

"I had the pleasure of working with Woodstock Power and was impressed with their expertise and professionalism. The service I received was exceptional. I would highly recommend using Woodstock Power services."

SENIOR CRITICAL INFRASTRUCTURE TECH

Why Sell To Us?

Woodstock Power Company is always in the market for used commercial and industrial generators to serve the power generator needs of customers across the country. We purchase functioning used and surplus diesel, natural, and portable generators from every manufacturer.

Competitive Pricing

When selling your used/surplus diesel or natural gas generators to Woodstock Power Company, you are guaranteed a maximum the value of your equipment. We pay more for used commercial and industrial generators than anyone else in the industry. Our philosophy for purchasing is to offer fair, competitive offers. We believe this is the primary reason why so many of our customers repeatedly sell their equipment to us. We pay the full price for equipment at the time of transaction before we take ownership of the generator. Our goal is to develop long term relationships with our clients, earning your trust one sale at a time.

We Make It Easy to Sell Used Generators

When selling your generator, you will find that Woodstock Power Company makes the entire process easy and hassle-free. The easiest and most convenient way to begin the process is to send us a picture of your generators and other information by filling out the form found on our website at www.woodstockpower.com. Our experts will get back to you as quickly as possible with a competitive quote. You can always give us a call at 610-658-3242 to speak to one of our industry experts.

Broad Range of Service Availability

When selling your used equipment to us, we can send one of our own trucks to your facility to pick up your generator. This eliminates the time, effort, and stress, as well as helps you avoid exorbitant shipping costs. The entire transaction, including issuing of payment and picking up your generator can be done in no more than three days.

With our commitment to providing the best service possible to sellers, we can also assist with larger projects, such as data center decommissioning and gutting large industrial facilities. Our extensive nationwide network of partners throughout the United States enables us to provide these services regardless of where your facility is located.

Services

Sell Your Used Generator

Woodstock Power Company buys new, used, and surplus generators, as well as transfer switches, electrical switch gears, transformers, and more. If you're looking to sell your used, new, or surplus equipment, visit our website at www.woodstockpower.com and fill out the form. We request that you provide us with as many pictures and details as possible, so we can give you the best pricing possible.

Rent Equipment From Us

Woodstock Power also offers comprehensive equipment rentals for construction, as well as for industrial sites. Our rental fleet is sourced from our used inventory and includes a wide range of low hour, well-maintained machines that have been tested and certified to be in working condition. Available products include:

- Diesel & Natural Gas Generators
- Power Accessories

Financing Options Are Available

Choosing a machine that will deliver top-notch performance and reliability is essential, but it is also usually a very big long-term commitment. Financing a used generator from us allows for businesses to save on upfront costs and allows for greater flexibility in purchasing options, as well as additional benefits, including:

- Cost Savings
- Greater Brand Variety
- Generator Availability

Installation

Woodstock Power Company can coordinate the installation of your generator. We will deliver the generator to your location and have a crew in to assist you with the process from purchase to installation and even startup on your site.

Turnkey Solutions

Woodstock Power offers a variety of full turnkey solutions and services to enhance the experience for our customers. Our project management team will coordinate from start to completion, so you can focus on the bigger picture. From logistics, to equipment installation, site power consumption planning, to decommissioning and disposition, we will use our industry expertise to professional complete your project.

Whether you're purchasing a generator that include site surveys, logistics, including freight & rigging, as well as installation, testing, and commissioning, post install services, decommissioning, and removal of the old generator.

Whether you're purchasing a generator as a backup system or for a prime power application for a major industrial operation, we'll help oversee this often arduous and critical process.

Our expert team can also provide training for you and your crew to make sure you feel confident in your purchase and operation of your facility's equipment.

Industries

Woodstock Power Company specializes in buying and selling used, new, and surplus generators, as well as equipment used for data centers, engines, and electrical support equipment is all just a part of our ongoing commitment to provide reliable, cost-effective power solutions to a broad range of industrial customers. We proudly serve the power generation needs for companies of all sizes and industries throughout the U.S., including power plants, water treatment plants, hospitals, data centers, and many others.
